EDUCATION

East Central University **Ada, OK**

Bachelor of Science in Computer Science | GPA: 3.50/4.00 Jan 2024 - Expected Dec 2027
Minor: Information Systems
Awards & Grants: Dean's List: Spring 2024, Fall 2024, Fall 2025, International Tuition Grant ($10,000/yr; 2024-2026)

PROFESSIONAL EXPERIENCE

Global Opportunities Nepal **Kathmandu, Nepal**

Market Research Analyst May 2023 – Dec 2023

- Analyzed data on US universities to identify top academic programs and admission trends for international students
- Reported data in a way that helped to guide the placement of students
- Coordinated the application process for students by managing technical documentation and ensuring all requirements meet US university standards

Data Content Specialist May 2023 – Dec 2023

- Researched US study abroad trends to create targeted TikTok video content and advertising templates that increased student engagement
- Designed marketing assets according to collected data and managed students' application records to ensure accurate information was delivered to prospective applicants

PROJECTS

Automated Data Sanitization & Mapping Tool | Python **Dec 2025**

- Built a Python script that lets users make game characters by setting names and stats, including checks to make sure names are not too long, and total points add correctly
- Developed data validation system in Python to verify user input, ensuring character names meet specific length requirements and stats remain within defined numerical parameters

Modular Arithmetic Caesar Cipher | Python **Jan 2026**

- Created a "Caesar Cipher" program that hides or reveals messages by shifting letters of the alphabet based on a specific number
- Built a smart letter replacement system that makes sure capital and lowercase letters are changed correctly while keeping the message readable
- information was delivered to prospective applicants
