EDUCATION

East Central University — Ada, Oklahoma

Bachelor of Science in Computer Science; Minor: Information Systems. Dean's List; *Dec 2027*
President's Honor Roll: Spring 2026; International Tuition Grant ($10,000/yr; 2024-2026);
Member of Alpha Chi National Honor Society. GPA: 3.63.

Relevant Coursework: Data Structures, Database Design, Operating Systems, Cloud Fundamentals, Object-Oriented Programming, Computer Architecture, Web Development

EXPERIENCE

Market Research Analyst Intern / Data Content Specialist — May 2023 – Dec 2023

Global Opportunities Nepal — *Kathmandu, Nepal*

- Analyzed US university data using Python to identify top academic programs and admission trends for international students.
- Compiled findings into placement reports and visualized results using Excel, Tableau, and Matplotlib.
- Supported placement of approximately 50 students into US universities through data-driven reporting.
- Managed technical documentation and verified compliance with US university standards throughout the application process.
- Researched US study abroad trends and created TikTok video content and ad templates to increase student engagement.

PROJECTS

AI-Powered Grammar Assistant — Oct 2026

Python, OpenAI API, Prompt Engineering

- Built a Python CLI app that runs in a continuous loop and corrects grammar and syntax in real time.
- Controlled output by setting a system role with negative constraints ('Return only the corrected sentence'), wrapping user input in double-quote delimiters to separate it from instructions, and setting temperature to 0.2 for consistent results.
- Added input validation and error handling to catch empty inputs and edge cases without crashing.

Bhumika's Travel Journal — Oct 2026

https://github.com/bhumika2004-cloud/bhumikas-travel-journal

Python, FastAPI, SQLite, Leaflet.js, GeoJSON, Pillow, HTML/CSS, JavaScript

- Automated photo metadata ingestion using Python's Pillow library to extract EXIF data (latitude, longitude, timestamps) and reverse-geocode coordinates into location records via OpenStreetMap's Nominatim API.
- Loaded GeoJSON boundary data into a Leaflet.js map to highlight visited US states with translucent overlays and clickable tooltips.
- Built a timeline sidebar with live text search, state filtering, thumbnail previews, and flyTo animations that link sidebar entries to map markers.
- Set up FastAPI endpoints and SQLite schemas to handle image uploads, return location data, and track visited states.

Hatch and Hunt — Oct 2026

HTML, CSS, JavaScript

- Built an interactive Easter-themed web app, recognized on the Programiz Wall of Inspiration for UI/UX design and originality.
- Made the app fully responsive using custom interactivity and responsive design principles.

SKILLS

Languages: Python, SQL, JavaScript, HTML/CSS, C
AI / ML Tools: OpenAI API, Prompt Engineering
Technologies/Frameworks: FastAPI, Leaflet.js, SQLite, Pillow
Developer Tools: VS Code, GitHub, Google Cloud Platform
Data / Visualization: Excel, Tableau, Matplotlib

AWARDS & HONORS

- Wall of Inspiration Feature (Spring 2026): Programiz recognized Hatch and Hunt for UI/UX design and originality.
- Best Beginner Build (Spring 2026): Personal Portfolio Website won the Best Beginner Build title in the Programiz March Challenge.
