EDUCATION

East Central University **Ada, OK**

Bachelor of Science in Computer Science | GPA: 3.50/4.00 Jan 2024 - Expected Dec 2027
Minor: Information Systems
Awards & Grants: Dean's List: Spring 2024, Fall 2024, Fall 2025, International Tuition Grant ($10,000/yr; 2024-2026)

PROFESSIONAL EXPERIENCE

Global Opportunities Nepal **Kathmandu, Nepal**

Market Research Analyst May 2023 – Dec 2023

- Analyzed data on US universities to identify top academic programs and admission trends for international students
- Reported data in a way that helped to guide the placement of students
- Coordinated the application process for students by managing technical documentation and ensuring all requirements meet US university standards

Data Content Specialist May 2023 – Dec 2023

- Researched US study abroad trends to create targeted TikTok video content and advertising templates that increased student engagement
- Designed marketing assets according to collected data and managed students' application records to ensure accurate information was delivered to prospective applicants

PROJECTS

Automated Data Sanitization & Mapping Tool | Python **Dec 2025**

- Built a Python script that lets users make game characters by setting names and stats, including checks to make sure names are not too long, and total points add correctly
- Developed data validation system in Python to verify user input, ensuring character names meet specific length requirements and stats remain within defined numerical parameters

Rock, Paper, Scissors CLI Engine | Python **Jan 2026**

- Implemented a modular command line game using separate logic layers for user input, computer choice generation, and winner evaluation.
- Built an emoji mapped interface and real time score tracking system using loops, condition checks, and input validation to ensure accurate gameplay flow.

Personal Portfolio Website | HTML | CSS | JavaScript **Feb 2026**

- Designed and deployed a responsive portfolio showcasing Python projects, technical skills, and academic background, using a clean pastel-themed UI for clarity and accessibility.
- Hosted the site using GitHub Pages, integrating version control, and modular file organization.

CERTIFICATIONS

- **Data Fundamentals**, IBM — Issued Sept 2025
- **Intro to Programming**, Kaggle — Issued Sept 2025
- **AWS Educate: Getting Started with Networking**, Amazon Web Services (AWS) — Issued Feb 2025
- **Introduction to Data Science**, Cisco — Issued Oct 2024

SKILLS

- **Programming & Software:** Python, HTML, CSS, JavaScript, IBM Watson Studio, Visual Studio Code, Jupyter Notebook
- **Cloud & Networking:** Amazon Web Services (AWS), AWS Cloud, Network Fundamentals.
- **Tools & Design:** Canva, Video Editing, Microsoft Office (Word, Excel, PowerPoint).
