Education

East Central University

Bachelor of Science in Computer Science

Jan. 2024 – Dec 2027

Ada, Oklahoma

Relevant Coursework

- Data Structures
- Database Design
- Operating Systems
- Data Structures
- Cloud Fundamentals
- OOP
- Computer Architecture
- Web Development

Experience

Global Opportunities Nepal

Market Research Analyst Intern

May 2023 – Dec 2023

Kathmandu, Nepal

- Analyzed data on US universities to identify top academic programs and admission trends for international students.
- Synthesized findings into placement reports supporting the successful placement of approximately 50 students.
- Coordinated the application process by managing technical documentation and verifying compliance with US university standards.
- Explored ways to visualize and send a daily report of test results to team members using Microsoft Excel Sheets, and Google Sheets.

Global Opportunities Nepal

Data Content Specialist

May 2023 – Dec 2023

Kathmandu, Nepal

- Researched US study abroad trends to produce targeted TikTok video content and advertising templates that increased student engagement.
- Designed marketing assets from collected data and maintained students' application records for prospective applicants.

Projects

Automated Data Sanitization and Mapping Tool | Python

March 2026

- Built a Python script to sanitize and map user-submitted data, enforcing name length constraints and numerical parameter validation to ensure clean, consistent input.
- Developed a modular validation module that verified input against defined field requirements, flagging out-of-range values before processing.

Rock, Paper, Scissors CLI Engine | Python

April 2026

- Engineered a modular command-line game using separate logic layers for user input, computer choice generation, and winner evaluation.
- Built an emoji-mapped interface and real-time score tracking system using random selection, loops, condition checks, and input validation.

Hatch and Hunt | HTML, CSS, JavaScript

October 2020

- Developed an interactive, Easter-themed web application recognized on the Programiz Wall of Inspiration for exceptional UI/UX design and originality.
- Built a responsive user experience using custom interactivity and responsive design principles.

Personal Portfolio Website | HTML, CSS, JavaScript

October 2020

- Designed and deployed a responsive portfolio via GitHub Pages showcasing Python projects, technical skills, and academic background using a clean, pastel-themed UI.

Technical Skills

Languages: Python, C, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, Google Cloud Platform,

Technologies/Frameworks: GitHub

Awards / Honor

Wall of Inspiration Feature and Best Beginner Build

Spring 2026

Hatch and Hunt and Programiz March Challenge

Programiz

- Build an interactive, Easter-themed web application which was featured on wall of inspiration on programiz website.
- Build my personal portfolio showcasing my skills via GitHub pages which won the title of Best Beginner Build on Programiz March Challenge.
