EDUCATION

East Central University

Ada, Oklahoma

Bachelor of Science in Computer Science.

Dec 2027

Relevant Coursework: Data Structures, Database Design, Operating Systems, Cloud Fundamentals, Object-Oriented Programming, Computer Architecture, Web Development

EXPERIENCE

Market Research Analyst Intern

May 2023 – Dec 2023

Global Opportunities Nepal

Kathmandu, Nepal

- Analyzed data on US universities to identify top academic programs and admission trends for international students.
- Synthesized findings into placement reports supporting the successful placement of approximately 50 students.
- Coordinated the application process by managing technical documentation and verifying compliance with US university standards.
- Used Python to visualize and distribute daily visa outcome reports to team members, tracking student visa approval and rejection rates across applications.

Data Content Specialist

May 2023 – Dec 2023

Global Opportunities Nepal

Kathmandu, Nepal

- Researched US study abroad trends to produce targeted TikTok video content and advertising templates that increased student engagement.
- Built charts, graphs, and dashboards as marketing assets from collected data and maintained application records for prospective applicants.

PROJECTS

AI-Powered Grammar Assistant

October 2026

Python, OpenAI API, Prompt Engineering

- Developed a continuous-loop CLI application in Python that provides real-time grammar and syntax corrections.
- Integrated the OpenAI API (gpt-4o-mini), engineering specific system and user prompts to constrain the LLM's output for precise, deterministic results.
- Implemented input validation and robust error handling to gracefully manage edge cases and empty user inputs.

Rock, Paper, Scissors CLI Engine

April 2026

Python

- Engineered a modular command-line game using separate logic layers for user input, computer choice generation, and winner evaluation.
- Built an emoji-mapped interface and real-time score tracking system using random selection, loops, condition checks, and input validation.

Hatch and Hunt

October 2026

HTML, CSS, JavaScript

- Developed an interactive, Easter-themed web application recognized on the Programiz Wall of Inspiration for exceptional UI/UX design and originality.
- Built a responsive user experience using custom interactivity and responsive design principles.

Personal Portfolio Website

October 2026

HTML, CSS, JavaScript

- Designed and deployed a responsive portfolio via GitHub Pages showcasing Python projects, technical skills, and academic background using a clean, pastel-themed UI.

SKILLS

Languages: Python, JavaScript, SQL, HTML/CSS, C

Developer Tools: VS Code, GitHub, Google Cloud Platform

Other: Prompt Engineering, Microsoft Excel, Google Sheets

AWARDS & HONORS

- Wall of Inspiration Feature (Spring 2026): Programiz recognized Hatch and Hunt for exceptional UI/UX design and originality.
- Best Beginner Build (Spring 2026): Programiz March Challenge recognized the Personal Portfolio Website built via GitHub Pages.
